

Assignment
Fall 2025

Jahangirnagar University, Savar, Dhaka-1342

Department of Statistics and Data Science

Course code: WM-ASDS22 (Machine Learning for Data Science)

Full Marks: 10

Data Source:

<https://www.kaggle.com/datasets/akshaydattatraykhare/diabetes-dataset>

<https://www.kaggle.com/datasets/julnazz/diabetes-health-indicators-dataset>

Problem: For each dataset,

- (i) Provide a suitable description.
- (ii) Add an Exploratory Data Analysis (EDA) and interpret.
- (iii) Compare the performance of the **Logistic Regression** with the **Support Vector Machine (SVM)**.

Show the computer codes, detail analysis and results appropriately in each of the appropriate cases with necessary steps and interpretations. (Use R-programming to solve the problems)

Deadline: On the last class (by 01:00PM)

Please submit a hard copy of your assignment.
